**AFS Piedmont Chapter
Practical Metallurgy / Melting Seminar
Plant Tour
Southern Pines North Carolina
September 17 – 18, 2008**

Dear Mr., Mrs., Ms. Foundry Personnel,

We would like to invite you and/or your melting personnel to a very informative seminar on practical ferrous and nonferrous metallurgy / melting. The ½-day morning seminar will consist of speakers from the ferrous and nonferrous casting industries, who will discuss practical aspects related to metallurgy and melting.

It is the intent of the presenters to make each presentation user-friendly so the information can be applied to all foundries.

Some topics to be discussed in the 1/2 - day morning seminar:

Metallurgical Effects from Various Ferrous Charge Materials, Metallurgical Effects from Various Non-Ferrous Charge Materials, Slag Discussion, Contamination considerations for Ferrous and Nonferrous, Refractory Troubleshooting, Ductile Iron Concerns, Effective Temperature Control during Melting

Please consider this a personal invitation from the AFS Piedmont Chapter and its chairman, Mr. Rick Torrance. A flier for the registration will be supplied at a later date.

Thank you for your time and consideration.

Mr. Rick Torrance
AFS Piedmont Chapter Chairman 2008-2009
